

Find the Faker: word lists

Play with slips of paper and a pen. 4 to 12 players (one is the host each round).

How to play on paper

1. **Pick a host.** The host sits out this round. They choose a category and one word from the lists below, without saying it.
2. **Make the slips.** The host writes the secret word on a slip for every player except one. On that one slip they write FAKER. Fold them, shuffle, and hand one to each player. Everyone looks at their own slip in secret.
3. **One word each.** Go around the circle. Say one word that shows you know the secret word, but not so obvious that the faker catches on. Faker: listen closely and fake it. The host says the category out loud first, so the faker has a hint.
4. **Point on three.** Talk it over, then everyone points at their suspect at the same time. The person with the most fingers is out.
5. **Caught?** The faker gets one last chance: guess the secret word to steal the round.
6. **Points.** The faker gets 2 for escaping or for stealing the round. If the caught faker misses, everyone except the faker gets 1. Tick the boxes to remember which words you used, then pass the host job to the left.
